Elanchezhiyan P
Senior .NET Developer | Azure |
Microservices | Team Leadership

(+91) 99426 44999
elanche97@gmail.com
codebyelan.in

Senior .NET Developer and Team Lead with 6+ years of experience in healthcare and enterprise domains, specializing in .NET Core, Azure, and microservices. Proven ability to lead teams of 20+, scale APIs for 50K+ daily requests, and deliver HL7/FHIR-compliant systems. Experienced in AI-powered automation (Retell AI, N8N, OpenAI integrations) to cut manual effort and improve efficiency.

Core Skills

- **Languages & Frameworks:** C#, .NET 8, .NET Core, ASP.NET MVC, MAUI, Microservices Architecture.
- **Frontend & Visualization:** React.js, Next.js, JavaScript, Tailwind CSS, Bootstrap
- **Cloud & DevOps:** Azure (App Services, Cosmos DB, Blob Storage, Key Vault, CI/CD, DevOps), Docker, GitHub Actions, AWS S3
- **Databases:** SQL Server, PostgreSQL, MySQL, MongoDB, Cosmos DB,
- **Healthcare Standards:** HL7, FHIR, CCDA, Kno2 APIs
- **AI & Automation Tools:** Retell AI, N8N, Vapi, OpenAI integrations, Azure AI
- **Testing & Automation:** Unit Testing, Selenium (Java & .NET), Automation Framework
- **Collaboration & Tools:** SSRS, SSIS, ETL, Agile/Scrum.
- **Leadership & Soft Skills:** Team Leadership, Agile/Scrum, Client Requirement Gathering, Jira, Azure Boards, Git, Sonar Cloud
- **Additional Tools (Working Knowledge)**
 - NHibernate, NestJS, Java, PHP, Adobe ColdFusion
 - AmCharts, CanvasJS, Chart.js, Aspose Document Editors
 - Zego Cloud, Twilio, Comet Chat, Agora
 - Oracle, AS400, SQLite, Firebird, SQL Server Profiler
 - NetSuite, HubSpot, ConnectWise, EverFi, ServiceNow, ProcessMaker, QuestionPro
 - HTML2Canvas (open-source contributions)
 - Click Up, SSRS, SSIS, ETL
 - Xamarin (migration to MAUI), Android/iOS development collaboration

Work Experience

Senior Software Developer

App Innovation Technologies Pvt Ltd, Coimbatore | Apr 2021 – Present

- **Led a 20+ developer team** across multiple healthcare projects, mentoring juniors, conducting code reviews, and ensuring 95% on time delivery in Agile/Scrum environments.
- Designed & deployed **TeleMEDix**, a telemedicine platform enabling **1,000+ monthly consultations** with HL7/FHIR compliance, Twilio integration, and Azure Container deployment by streamlining scheduling & real-time API integration.
- Architected **microservices APIs** with .NET Core + Azure Cosmos DB, scaling to **50K+ daily requests** and improving response time by **30%**.
- Implemented **CI/CD pipelines** with Azure DevOps, cutting deployment cycles by **50%** and reducing production defects by **40%**.
- Partnered with global clients for requirements, retrospectives, and delivery alignment, ensuring stakeholder satisfaction.

- Integrated AI tools (Retell AI + N8N workflows) for automated patient data collection, reducing manual input time by **60%**.

Technical Associate

Encore Theme Technologies Pvt Ltd, Chennai | Aug 2019 – Apr 2021

- Developed financial applications using **.NET Framework, SQL Server, and Oracle**, ensuring high data accuracy and security.
- Designed and optimized **stored procedures and ETL processes** with SSRS and SSIS, improving reporting efficiency by **25%**.
- Automated financial reporting pipelines, reducing manual effort by **15+ hours per week**.
- Collaborated with stakeholders to gather requirements, prepare SDLC documentation, and support production deployments within Agile teams.

Projects

TeleMEDix | .NET 8, React, Azure, Twilio, CosmosDB

Cloud-native telemedicine platform enabling secure remote consultations and patient management.

- Engineered a platform supporting **1,000+ monthly consultations**, reducing wait times by **25%**.
- Integrated **HL7/FHIR & CCDA standards** for secure healthcare data exchange.
- Automated patient intake with **Retell AI + N8N workflows**, cutting manual entry by **60%**.
- Reduced deployment cycles by **50%** using Azure CI/CD pipelines

Scantron | .NET 8, AS400, SQL Server, Azure

Data capture and assessment platform for education and enterprise clients.

- Developed APIs for ticketing and reporting with Azure App Services, processing **10K+ assessments monthly**.
- Designed a **Power BI star schema data mart**, reducing reporting preparation time from **2 hours to 15 minutes**.
- Automated Jira ticket creation with Azure services, eliminating **100+ hours of manual logging per quarter**.
- Orchestrated Agile-driven integration between AS400 and SQL Server, ensuring **99% reporting accuracy**.

Remote-Com | .NET Framework, SQLite, Windows Services

Device monitoring solution for pretrial, probation, and parole clients.

- Engineered Windows services for **continuous monitoring of 4,000+ devices**, tracking logging, file usage, geolocation, and screenshots
- Designed a secure sync mechanism for offline-to-online data transfer, ensuring **zero data loss incidents**.
- Created iOS backup sync with duplication checks, improving device reliability by **99%**.
- Optimized SQLite for lightweight local storage with scheduled sync, cutting sync errors by **40%**.

Seahorse Analytics | .NET Core, PostgreSQL, Selenium, AmCharts

Healthcare data analysis application for Agilent Seahorse XF Analyzer products.

- Built REST APIs for healthcare analytics, improving **report generation speed by 20%**.
- Integrated **HL7/FHIR standards**, ensuring interoperability across systems.
- Designed Selenium-based automation with Excel-driven input/output, reducing **manual QA effort by 40+ hours/month**.
- Implemented **interactive dashboards with AmCharts**, enabling researchers to visualize metabolic assay results in **real time**.

Label Connector | MAUI, QuickBooks, Xero, Volusion

Cross-platform app for inventory and financial document labelling.

- Built a **drag-and-drop label design UI** with DevExpress, reducing design time by **40%**.
- Integrated QuickBooks, Xero, and Volusion, enabling **seamless financial data sync across 200+ businesses**.
- Migrated Xamarin app to **.NET MAUI**, consolidating Android and Windows codebases and cutting maintenance effort by **30%**.

Qliq1's | .NET Framework, MS SQL, AWS S3, Firebase

A social networking platform consolidating multiple activities in one place.

- Developed APIs for authentication, messaging, and content sharing, supporting **10K+ registered users**.
- Implemented AWS S3 for media storage and Firebase for notifications, handling **50K+ media uploads**.
- Optimized SQL Server queries and caching, reducing average response time by **35%**.
- Enhanced privacy features with customizable settings, improving user trust and compliance with data standards.

Freelance & Open-Source Contributions

Freelance Developer – PHP Project

- Designed and delivered a responsive **PHP portfolio website** for a financial advisory firm.
- Built a custom **.NET Core + React solution** for enterprise workflows, integrating APIs and optimizing backend performance for client-specific needs.

Open-Source Contributions

- **NetiMobileDevice** – Contributed bug fixes and enhancements, improving project stability.
- **NuGet Package** – Published a .NET library for **HEIC → JPEG/PNG conversion** (500+ downloads), enabling easier image handling across applications.
- Shared learnings and source code publicly, driving accessibility and developer adoption.

Technical Writing (Medium)

- Author of **technical blogs with 20K+ views**, covering .NET, AI, automation, and cloud.
- Popular posts include *Passkeys — The Future of Login Without Passwords*, *Audit Trail with React & .NET Core*, and *Hosting Multiple Next.js Apps on a Single Azure VM*.
- **Medium Profile:** medium.com/@elanchezhiyan-p

Education and Certifications

- B.E. Electrical & Electronics Engineering — Anna University, Chennai | **2015 – 2019**

Certifications

- .NET Full Stack Developer Certification – C# Corner
- Foundational C# Certification – Microsoft / FreeCodeCamp
- Jira Fundamentals – Atlassian University
- cPanel User Interface Proficiency – cPanel University
